## Explain Learning

Watch our video: **Computer Study Groups** 

## Success is more likely when you use a computer to:

- take notes in class
- upload files and pictures
- organize all your files
- do homework with a friend
- make flashcards of terms
- make a Study Guide for the test
- save it all for later study

Get it together this time around. Study with help. Make it easier. Meet in person. Face-to-face. Over coffee. And utilize the power of a real social network. Your study group. Put your social mind together with the use of ExplainLearning.com: a study group study system.

## Value is in the skills you learn:

LEADERSHIP

**GROUP TEAMWORK** 

THINKING ON YOUR FEET

MEMORIZATION AS YOU TALK OUT LOUD

STRONG SOCIAL SUPPORT

Just visit explainlearning.com and solve the problem. Form a group of 2-6 people for your hardest class. All your work is yours to save on a flashdrive when you're done.

Get in, get competitive, get social, gain much more.
