40 FRIENDS?

I CAN HAVE 40 REAL FRIENDS TO HOOK UP WITH?

Are you 13-26 years old, and want a better way to find other students, who are up to doing things socially and studying for school work at any time, when you are?

Now we have a Club in the Southwest where you can have free digital software that allows you to group up, and meet up with so many friends for social and academic reasons!

People get up on the site and ask to see if anyone else is up for that activity from a list, and can meet group-with-group, so everyone can do that activity having fun. Don't text alone anymore! Go out, meet people like you, and do activities! There's people waiting to meet you right now!

- **Saturday pizza group x 5 people from my school**
- **Thursday soccer group x 8+8 people from two schools**
- **Tuesday video games group x 5 people from my school**
- **Sunday sports group for exercise x 4x4x4 people from 3 schools**
- **Monday-Friday after class study group x 8 people, two groups of 4 from Biology in my school**
- **Friday dating group x 4+4 people from two schools**

= **that's 54 friends, met per week and weekend, spread around two plus schools!**

And since you meet in groups, you never have to meet people uncomfortably alone!

Do you feel FAMOUS yet? Now you can! Be a new you.

The Southwest Academic and Social Club

Pass out copies of this flier to people at your school from a link on the site, and have them pass out copies too to friends they know! Populate the site! It's FREE social opportunity!

Go to www.southwestacademicandsocialclub.com and find us as well on meetup.com!
